Creating A Healthy Workplace: OSHA, IIPP and Workplace Violence

Summary of Program

Federal and state OSHA laws protect California workers from unsafe working conditions. However, the federal and state statutes and regulations are complex and can be difficult to understand. This seminar is designed to remove some of the mystery from federal and state OSHA requirements and assist you in your compliance.

Program Highlights

- Implement a compliant and effective Injury and Illness Prevention Plan (IIPP).
- Avoid enormous Cal/OSHA fines and hassles by regularly assessing your organization's IIPP, training your employees, and shoring up weaknesses in your safety practices.
- Better understand what OSHA regulations apply to your industry so you won't be caught off guard if and when accidents occur.
- Use effective preventive measures to keep your employees and customers safe from threats of workplace violence.
- Recognize the warning signs that indicate an employee is capable of violence and how to respond.
